Abstraksi

Website profile adalah website yang berisi rangkuman atau penjelasan singkat mengenai suatu perusahaan, sejarah berdirinya perusahaan tersebut, tujuan dan pencapaian yang diinginkan dalam masa depan, visi dan misi, produk yang ditawarkan, klien-klien yang telah menjalankan kerja sama, serta berbagai informasi lainnya terkait dengan perusahaan itu sendiri.

Pemanfaatan dan keguanaan web profile sangat banyak sekali, salah satunya adalah untuk marketing atau media promosi untuk memperoleh klien atau customer, dan disetiap manfaat dan kegunaannya nanti dipengaruhi oleh bentuk desain dan kelengkapan data. Sehingga pada dasarnya web profile perusahaan yang menariklah yang akan banyak pengunjung/klien, baik menarik dari segi image maupun tulisan, selain itu web profile juga dapat menjadi salah satu tanda ke profesionalitasan sebuah perusahaan.

Setiap profil perusahaan, informasi kontak selalu disertakan. Informasi kontak mungkin tidak lebih dari sekedar alamat fisik dan surat untuk kantor pusat perusahaan, atau mungkin termasuk nama dan alamat dari petugas atau eksekutif tertentu dari perusahaan. Biasanya nomor telepon dan nomor faks juga dimasukkan dalam data kontak. Dalam beberapa tahun terakhir, alamat email dan informasi umum juga dianggap penting dalam sebuah profil perusahaan.

Jadi kami disini ingin membuat sebuah website profil, yang berfokuskan pada Profil Perusahaan. Web ini nantinya akan kami buat menggunakan framework seperti Bootstrap,Font Awesome,dll. Tidak hanya itu, Web ini akan dilengkapi dengan fitur-fitur yang mendukung/cocok untuk sebuah Web Profil Perusahaan. Dimana fitur-fitur tersebut seperti Google Maps,Responsive,Disqus Comment System,Formspree,Social Media Integration, dan juga Frequently Asked Question. Web ini juga dilengkapi dengan API Share Social Media,Comment System Disqus,Google Maps API.

Latar Belakang

Latar belakang kami membuat Web Profil Perusahaan dikarenakan, Perusahaan sendiri merupakan penyedia lapangan kerja terbanyak di Indonesia itu sendiri. Sehingga kami mendapat ide untuk membuat Website yang berkonten tentang Profil Perusahaan-Perusahaan yang terdapat di Indonesia. Untuk menarik minat pelamar kerja ataupun membuat Perusahaan mereka dikenal oleh masyarakat, maka dibutuhkan sebuah media untuk mengenalkan tentang Perusahaan mereka yang salah satunya melalui media Website. Website sendiri merupakan sebuah media yang fleksibel, dikarenakan Website dapat diakses melalui berbagai macam platform dan dimana saja kapan saja selama Website tersebut masih aktif.

Sering kali Perusahaan-Perusahaan kecil/baru memiliki perkembangan bisnis yang bisa dibilang cukup lambat, salah satu penyebab dari hal ini dikarenakanya kurangnya SDM yang berkualitas serta kurangnya pengetahuan umum masyarakat akan perusahaan itu sendiri. Dengan adanya Website Profil Perusahaan ini, diharapkan akan menambah pengetahuan masyarakat akan keberadaan Perusahaan ini yang akan berujung meningkatnya Lamaran Kerja / Prospek Bisnis mereka.

Untuk mencapai hal-hal yang telah kami sebutkan diatas tersebut, Website Profil Perusahaan ini sendiri akan memiliki berbagai macam fitur. Seperti Profil Umum tentang perusahaan, Alamat Perusahaan, Fasilitas Perusahaan, Jobdesk yang terdapat dalam Perusahaan, dll. Tidak hanya itu, untuk menambah komunikasi antara Perusahaan dengan Masyarakat yang berminat ingin tahu seputar Perusahaan tersebut, akan di sediakan fitur Komentar dan Direct Email kepada Perusahaan tersebut.
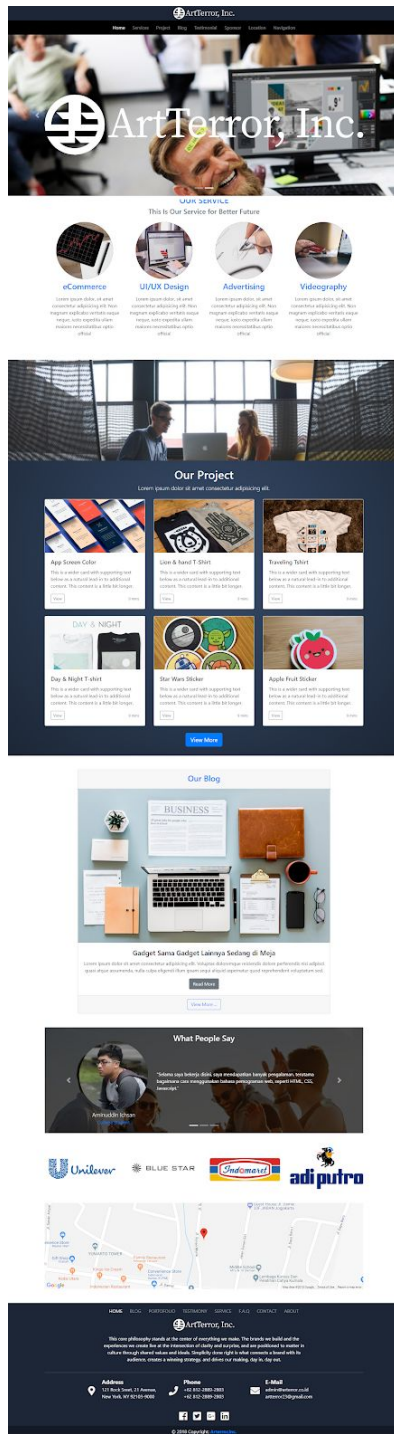

Fitur

Berikut fitur-fitur yang ada dalam Final Project Web Profile ini;

- Google Maps Javascript API
  - Digunakan untuk menampilkan Google Maps di website yang dapat disesuaikan tampilan dan keterangannya.

- Font Awesome
  - Digunakan untuk mempercantik tampilan dengan tambahan icon dari font.

The Most Awesome Things We Do In Our Company History
And Yet, Nobody Have Seen This Before

27
May, 2018

Aminudin Noor Ichsan

Interior decorator and small-business owner Deborah Wiener, 46, has carved out a special place in her Silver Spring, Maryland, market. She doesn't just help clients pick out colorful fabrics and comfy furniture--Wiener's work is much more specific and detailed than that. The entrepreneur's 4-year-old niche company, Designing Solutions LLC, specializes in creating family-friendly interiors for her clients' homes. This includes helping customers choose furniture that can stand the wear and tear of active children, stain-resistant fabrics, and lamps and accessories that are less prone to breakage.

Before launching Designing Solutions, Wiener did her homework to see if there was really a need for the niche enterprise she was contemplating. An interior designer by trade, she took various friends and acquaintances with children out to lunch in groups of three and four. She asked them what they thought of local interior decorators, and most said they were too "fancy," offering suggestions not practical enough for people with kids.

Wiener also began writing columns for and advertising in local publications, churches and synagogues to promote her skills. The mother of two boys, ages 14 and 9, discovered through her research and marketing that there was an unfulfilled need in her community for an interior decorator who under-stood the needs of clients with kids running amok through their homes. This niche business, which projects more than $2 million in sales this year and has four design consultants, was born in 2001 in Wiener's home.

Niche businesses like Wiener's--which offer a product or service focusing on one specific aspect or customer base within an industry--are growing at a rate of 20 percent to 25 percent per year, according to Ira Davidson, director of the Small Business Development Center at Pace University in New York City. Some popular niches these days include specialized pet products, beauty salons/spas, travel agencies, back-office services, technical/online support and business coaching.

Before you approach lenders or private investors for capital, research your market to determine if your business idea will develop into a viable niche enterprise. Examine your competitors' earnings, if that information is available online or in libraries, Davidson says. If competitors are well-established, they won't see your startup as a threat. In most cases, you can pick their brains for information on how the market is performing, what they charge and if there is room in the niche for a new business like yours.
